CP60 Recodable Combination Range

The CP60 high security padlock, combines a modern and attractive design with very heavy duty construction offering the best in durability and resistance to attack.

It features a hardened steel 10mm diameter shackle, a 60mm wide die cast alloy lock body with dual compound cover and 5 easy to use spaced wheels.

These robust recodable combination padlocks deliver heavy duty security, and there are no keys to lose. The die cast alloy lock body has a dual compound protective cover for high corrosion resistance and excellent weather protection.

Its unique recodable **double locking** mechanism offers **100,000 combinations** and has a **push button** spring opening mechanism for ease of use. The CP60 is available in open shackle, closed shackle and extra long shackle variants.

Recommended for

Uses: gates, vans, large sheds, garages and commercial buildings.
