

Squire Stronghold™ cylinders - accessories

Sprocket drive

Model No: CYGEARCAM

As demand for multiple extendable door bolts grows, we have developed a sprocket drive system which can be easily adapted from our cylinder range. The sprockets come in 3 sizes to accommodate most manufactured systems. 10, 13 and 18 tooth sprockets are available.

Pinning jig

Model No: CCYJIG

Probably the most versatile tool ever developed. This amazing jig allows the loading of top (body) pins and springs without the need for a second pair of hands. The pins and springs are loaded quickly and accurately saving you the time on cylinder reconstruction. Suitable for our Stronghold® cylinder range including, Euro, Rim, Threaded, Scandinavian and UK Ovals.

Cylinder measuring device

Model No: CYCMD

Ever tried to measure the length of a cylinder when fitted to a door? SQUIRE's cylinder measuring device helps you get an accurate measurement.

Cylinder measuring device

Security key card

Model No: CYKEYCARD

With all our Restricted and Protected cylinders we provide you with a key registration card. This card identifies that the rightful owner of the cylinder has permission to get extra keys cut.

Security key card

Alternative knobs

Model No: CYKNOBX

For those with special needs, we provide a range of comfort knobs. Especially designed to be easily held and turned they come in a variety of colours and finishes and are available from stock.

Clear plastic pocket master key system

Model No: CYPOCKET

At SQUIRE we aim to make your life a little bit easier with our new Clear Plastic Pocket Master Key System. All of our master key systems will be delivered in these pockets giving the user immediate recognition of the type and the door number of the cylinder. As an added feature, the pocket can be hung on a door handle ready for installation.
