

Restricted range

Features and benefits

Restricted Range R1:

The SQUIRE **Stronghold®** Restricted profile provides you with a secure method that controls the copying of your cut keys. Capable of coping with large master key systems and high usage demands placed on the individual cylinder, it can also provide locksmiths with the luxury of their own profile.

Restricted Range

- 6-pin locking system with nickel silver pins
- 530,000 keying differs
- Restricted multiple profiles (profiles will be available under close supervision) security key card protected
- Picking protected
- Drill protection in cylinder body with 1 tungsten carbide pin
- Drill protection in core with 3 tungsten carbide pins
- Protection against pulling
- Nickel plated core (Nickel finish cylinders only)
- High wear resistance
- Supplied with 3 nickel silver keys
- Can be supplied masterkeyed or keyed alike
- Security card protection system.
